

# MEXPORT LEAD RETRIEVAL SYSTEM

## The Lead Retrieval System (LRS) - Powered by Everest Software Solutions

The LRS is a Web app that allows you to quickly capture leads without the need of renting any type of hardware. It provides an online solution to capture and manage leads easily and effectively by scanning the QR code included on each attendee's name badge with an iOS or Android device.

The information stored in the system is secured and can only be accessed with your registered MEXPORT Exhibitor's email address and a password provided by the Otay Mesa Chamber of Commerce (OMCC). Leads will be available online for up to 6 months after the event.

### Hardware & Software Requirements

- iOS or Android Device
- Mozilla Firefox Web Browser
- Internet Connection

### How to Scan Name Badges

1. Access LRS web address (Provided by the OMCC).
2. Log in with your registered MEXPORT Exhibitor email address and the password provided by the OMCC.
3. Start scanning QR Codes included on each attendee name badge during the show.

### How to retrieve your MEXPORT leads
